Web Technologies: HTML, CSS, Basics of JS

Framework:- Spring Boot.

Cloud Technology: AWS(EC2,VPC,S3,CLI).

Knowledge:- Git, GitHub.

PROJECTS

• Customer Management API

This project is a RESTful API built with Spring Boot for managing customer records. It provides CRUD operations. The project follows the principles of REST architecture, making it a straightforward CRUD API for customer management.

•Form Validation Using HTML, CSS and JavaScript

Form validation using HTML, CSS, and JavaScript ensures that user-submitted data meets specified criteria. HTML provides form structure, CSS enhances visual feedback, and JavaScript handles dynamic validation.

• Rest Api using spring boot and AWS

This project is a restful api built with spring boot which returns a string value. I have created an EC2 instance in AWS and i deployed the application in an EC2 instance.
