PROFESSIONAL EXPERIENCE

Web Developer at Capaz Software Lab

Dec 2022

currently I am working on client base live project .

My responsibilities included design, development, testing, and page speed optimization. Work closely with programmers and clients to meet project requirements, goals, and desired functionality.

Software Engineer at macmerise pvt Ltd

Jun 2021

- Developed websites from front to backend using React, Redux, and Medusa.
- Enhanced user experience and accomplish webpage objectives by creating site structure, navigation, page optimization, and graphics integration.

PROJECT

Project: Rapport London E-commerce Store

- Rapport London is a UK-based online store project that I had the privilege of working on. My responsibilities included design, development, testing, and page speed optimization.
- Tech Stack - Shopify for design and development
- Klaviyo for personalized email, SMS, and messaging campaigns
- Klarna for secure and flexible payment options
- Fastshop for image size reduction
- Thunder for CSS and JavaScript code optimization
- GTmetrix for website loading speed analysis
