

RAJMOHAN ROSY

No:14,Kamaraj Nagar,1st Street ,Kumananchavadi,Ponnamallee,Chennai-56

Tel:(Mobile) +91-9789966979,91-9844636386 **Email:**rajmohan153@gmail.com.

Synopsis:

- Around **11.5+years** of professional work experience in IT industry working as a **Senior Data Test analyst, Automation, Sales forces ERP System & Database Testing, Cloud Platform (Azure ,AWS and Snowflake & Agile (Scrum), Business analysis , Tableau and Data Warehouse Informatica Tools.**
- Deploying SAP Data Hub in Cloud and On-Premise environments
- exposure to SAP Data Hub Metadata Explorer with the goal to manage metadata assets that are spread across diverse systems
- 10+ years of relevant work experience in an insights generation role (data analyst)
- Enough to Connect to data sources with the ability to automatically crawl their meta data structures
- Fluent with SQL querying with joins and unions , Aggregate functions
- Experience in BI tools like **Business Objects, Power BI and Tableau Dashboards Reporting Tools** and Ability to create dashboards using BI tools like Tableau
- Testing for reporting, Dashboards, **ETL**, and/or data warehouses or other similar activities in a Business Intelligence development environment
- **Monitoring deliverables and ensuring timely completion of projects.**
- **Good Experience in SQL in_must be comfortable with joins, outer**

joins, merges and analytical functions

- Create and maintain documentation related to data sources, processes, and methodologies to ensure data quality, consistency, and integrity
- Well Versed with Workflow Pipeline Operators, Remote Sources Orchestration, Structured data transformations, data masking and Validation Rules
- Well Versed with SAP Data Hub integration with enterprise apps (such as SAP S/4 HANA and SAP S/4 BW)
- Experience in SQL to retrieve data from tables using aggregations, window functions, roll-ups, etc.
- Utilize Azure Data Factory and SQL to perform operational support, deliver enhancements and bug fixes for clients
- Work with clients on the full data migration lifecycle, including scoping, mapping, transformations and technical data migration
- Liaise with SAP for getting the support through OSS messages for any technical issues
- Support the mapping and migration of complex data structures from 3rd party systems into Data Warehousing and Salesforce solutions
- Best ways to handle client or Process owners or Internal
- Experience working in an **Agile/Scrum** development process using **JIRA, Rally HP ALM** and Experience using Test Management tools like **Zephyr**.
- Evaluating business processes, anticipating requirements, uncovering areas for improvement, and **business analysis, Analytical skills** etc.
- **Technical experience configuring, deploying and monitoring data warehousing solutions using SQL, Python, R or similar technologies**
- Exposure to End-to-End testing on **Mobile application, Web Applications on IOS and Android Apps**
- Ensuring solutions meet **business needs** and requirements
- **Experience in user testing and project management**
- **Hands on experience on Android native and web application.**
- Experience in testing **Mobile apps on various top end family of devices (Blackberry, Samsung, Google Pixel, Apple).**
- Review and coordinate **delivered solutions/ functionalities** for quality and accuracy
- Experience of mobile application testing using emulators / Simulator for android platform.
- Has strong exposure for working with different clients like **Banking, E-Commerce ,Healthcare, Insurance & Retail and Hospitality.**
- Have worked on both **Android & IOS** Operating system and experience with **tools like Charles Proxy, ADB Commands, Test idea generation, Bug reporting and Google Chrome Emulators.**
- Involved in writing application-level code to interact with **APIs, Web Services using JSON, XML.**
- **Follow agile testing methodology and guidelines in testing the planned content and ensure requisite quality is maintained**
- **Review planned user stories for Test coverage, Participate in Story grooming and Sprint Planning.**
- **Enumerate Test Scenarios for Agile User stories covering all agile testing quadrants(Q1-Q4).**

- **Having strong knowledge in DB, SQL Queries & SQL Joins and Backend Process**
- **Client & Project Management, Reporting Analysis, Requirement Gathering, Process Mapping.**
- Experience in the creation/execution of positive and negative **functional and regression test scripts** across multiple platforms and systems that include web-based enterprise applications, custom developed in-house applications, and **third-party integrated applications.**
- Experience with test management/defect tracking tools like **Jira, HP Application Layer Management(ALM) ,Rally ,Azure Devops.**
- Well versed with Handling Elements in Selenium **Web driver ,Android Studio.**
- Writing Test cases using **Element Locators, Web driver methods, Java programming features and TestNG Annotations.**
- Hands on test case creation, management and test case execution and provide oversight of business user acceptance testing, and the review of development testing efforts.
- Creating the **Test Plan Documents, Test cases Scenarios ,Test Cases, executing test case** as per SRS/FRS Requirements Documents and Exceptionally document the process to Perform functional testing of the application.
- Ensured that all the test cases were updated in Quality Center
- Involved in **Agile software development lifecycle** which involves designing, coding, testing, debugging and support.
- Developed and executed test plans and test cases and **conducted functional, integration, system, regression and UAT testing.**
- Effective knowledge for healthcare payers & providers supporting multilevel applications
- Certified Lean/Six Sigma and **Agile practitioner** having solid exposure on **Scrum, Retrospective Sprint, Cloud and Waterfall model**
- Have strong Experience in **functional, regression, installation, integration, database, migration, upgrade, and compatibility** Testing.
- Has good knowledge for cloud solutions in **AWS Platform on various testing Applications.**
- Participated in implementing test-plans and test cases built on high leveled and detailed design
- Executed SQL queries to perform **back-end testing as well as validate test data.**
- **Developed test plans, test scenarios, test cases, traceability matrix, test summary reports and test execution metrics**& participated in project specification reviews, writing, and maintaining QA technical documentation
- Identified and **debugged, troubleshot**, modified, documented, and tested **production issues.**
- Executed **test plans including back-end testing using SQL queries**& worked on business scenarios by testing on **Web/QA Mobile applications** with Various System / Windows Platform.
- Executed all test cases in the test environment and maintained

- and documented the test queries and results for future references.
- Developed sub queries and joins (**inner and outer Joins**) in **SQL Server** to **validate data at back-end**.
- Good working knowledge for ITIL assignments like **Incident, Service Request, Problem, perform defect management, defect aging and defect resolution** activities to ensure adherence to quality assurance goals and guidelines
- Gained proficiency in handling projects and ensuring timely completion of the same
- Team member with strong analytical and problem-solving abilities
- Has the ability to grasp the concept easily, very interactive & readily adopting to situations, believing in hard work and sincerity
- A self-motivated team player with good analytical, relationship management and problem-solving skills.

Objective:

Intend to do work with leading corporate in the high-tech industry & work alongside top-notch & committed professionals. It will allow me to apply the knowledge that I have attained & gain practical experience in meeting challenges of real-life projects.

Technical Skills:

- **Programming Language:** Oracle SQL, PL/SQL, RDBMS, **Python, Mongo DB**
- **Automation Tools:** Selenium Web driver, IDE.
- **Dashboard Tools:** Business Objects , Tableau and Power BI
- **Environment and Web Technologies:** XML, SQL, SQL server 2008, Windows 7, MS Excel.
- **Tools:** SQL developer, Service Now, Citrix, Git, Jenkins, Tomcat, Rally, Jira, EDA Software tool.
- **Database:** Oracle9i, 10G, 11G, Microsoft SQL Server, Mango DB, Informatica.
- **Data Visualization Tools : Informatica, Snowflake**

Career Highlight

Organization	Designation	Duration

Chennai	date
---------	------

Major Client List:

Roles and Responsibilities:

Client: Duration(Nov to Till Now) ABB Hitachi Energy as Grid Star project is to simplify and improve the cooperation and data handling between the HVDC system engineers and departments. This to speed up the design process, to increase the tender and project efficiency while making the system design process less sensitive to human errors by handling changes to data and/or requirements in a more efficient way.

Client : Walgreens Boots Alliance (Nasdaq: WBA) is an integrated healthcare, pharmacy and retail leader serving millions of customers and patients every day, with a 170-year heritage of caring for communities. A trusted, global innovator in retail pharmacy with approximately 13,000 locations across the U.S., Europe and Latin America, WBA plays a critical role in the healthcare ecosystem. The company is reimagining local healthcare and well-being for all as part of its purpose – to create more joyful lives through better health. Through dispensing medicines, improving access to a wide range of health services, providing high quality health and beauty products, and offering anytime, anywhere convenience across its digital platforms, WBA is shaping the future of healthcare.

Client :Darden(USA)Olive Garden is an American casual dining restaurant chain specializing in Italian-American cuisine. It is a subsidiary of Darden Restaurants, Inc., which is headquartered in Orange County, Florida.

Client :Aetna (USA) , which is one of the largest American managed **health care companies** selling traditional and consumer directed health care insurance plans and related services such as medical, pharmaceutical, dental, behavioral health, long-term care and disability plans, Types of claims.

Using project management methodologies, principles, and techniques to develop project plans and to cost, resource and manage projects

Set-up testing environments and **prepare test data for testing flows** to validate and prove **positive and negative cases.**

Participate in an **Agile development environment** and able to quickly analyze and interpret business requirements to complete Sprint testing activities

Taking responsibility for deploying functional solutions, such as creating, adopting, and implementing system test plans and test case, which ensure acceptable quality and integrity of the system

Understanding for **Agile practices (Daily scrum, iteration planning, retrospective, test driven, behavior driven, model storming)** and follow the same

Involvement in **Test Execution, Results Analyzing and Defect Reporting**

Work with developers to ensure that functional test cases will sufficiently test the technical details and complex business rules.

Scope problems, identify major issues and actionable opportunities, design solutions, and quantify potential bottom-line financial impact

Drive performance improvement through improved end-to-end process design and management

Direct the design, development and implementation of organization effectiveness projects and engagements.

Involvement in solving Environmental problem along with technical support people, Especially in Server Connections and Database Sharing issues.

Has experience for creating process flows to turn into technical training material with proficient PC skills (**Excel, Word, Visio, Power Point**, etc.)

Retested the modifications once bugs were repaired after reinstalling the application

Lead interview campaigns, working sessions, and senior client presentations; maintain composure and presence in difficult client meets& conduct coaching for front-line associates, supervisors, and management staff for the purpose of managing daily performance improvement.

Strong analytical and writing skills with solid experience in writing functional and technical specifications

Identify potential roadblocks / obstacles and escalate issues as needed& coach and guide clients on using process improvement tools for daily improvements

Identifies updates needed in training program and collaborates with trainer for a solution to continually improve programs

Skills:

Automation Tools: Selenium Web driver, IDE, Espresso Framework , Android Studio.

Web Services Tools : Postman and JSON Services.

Databases: Oracle 10g, Microsoft SQL Server, RDBS, POSTGRE SQL.

Programming Languages: C++, JSTL, Java, SQL, PLSQL.

Web Servers: Apache Tomcat 5.x

OS/Platforms: Mac OS X, 10.9.5,2008/Vista/2003/XP/2000/NT, Linux ,Mac.

Client Side: JavaScript, CSS, HTML.

Web Technologies: XML, HTML, DTD, XML Schema, XPath.

Methodologies: Agile, UML, Design Patterns, SDLC.

Defect Tracking Tools Used : ALM, Jira, Bugzilla, Rally , Insight, Etc.

Test Management Tools Used : ALM, Test Link , rally, ADO(Azure).

Mobile Tools : Espresso, Android Studio.

Education& Awards:

- Full time Bachelor of Technology (B-TECH) from **SATHYABAMA UNIVERSITY** of Technology (**2011-71%**).
- Distance education of MBA(HR) from Madras University (2013)
- Higher Secondary Education: HS Examination (2007)
- Secondary Education: 10th Examination(2005)
- IAO Certified (International Accreditation Organization) passed in CEGONSOFT India (2012)
- Star & Excellence client award received from Emids India, Bangalore (2017)

- Certified Aspire HIT and PROVIDER Certification (2017)
- Certified Agile practitioner (2017) with strong knowledge in scrum methodologies.

Experience Summary:

- **Amitech Private Limited Ltd**, Chennai.(Mar 2012 – August 2013)
- **Ninestars Information Technologies India Private Limited**, Bangalore.(Sept 2013 – Feb 2017).
- **Emids Technologies Private Limited**, Bangalore.(April 2017, to May 2018).
- **Currently working with Photon Infotech Private Limited**, Chennai.

Achievements

- Performance Excellence Award for Best delivery and deploying the project with Major clients like **Samsung, Flipcart, and Amazon & Walgreens and Aenta**
- Received Best Performance award as a team in Client for Successful delivery within release for critical requirement in short term of period.

Company Name :Photon Interactive Ltd, Chennai.

Domain : Power Grids Systems

Project Name: HDVC

Client : United States(US)

Role : Senior Lead Engineer

Duration: Nov 2020 – till now

Size: 06

Tools: Azure Devops, Service Now, Mango DB.

Company Name : Photon Infotech Pvt Ltd, Chennai.

Domain : E-commerce, Healthcare

Project Name: Walgreens

Client : United States(US)

Technology : Power BI, Mongo DB

Role : Data Analyst

Duration: (May 2019 – June 2021)

Team Size: 09

Tools: Rally, ALM, Citrix, Service Now, UNIX putty, SQL developer, Jira, Post Man Services, JMeter

Company Name : Emids Technologies Pvt Ltd, Bangalore

Project Name: AHM(Active Health Management).

Client : United States(US)-**Aetna**

Role : Senior Test Engineer

Duration: April 2017 – Jan 2018

Team Size: 36

Tools: Rally, Citrix, Service Now, UNIX putty, SQL developer, Jira, Post Man Services.

Company Name : Nine stars Information Technologies, Bangalore

Project Name:

- **COC (Clip on clouds) :**
- PRECISE

Client: UK, Canada

Role : Software Data Test Analyst Engineer

Duration:(Sep 2013 – Feb 2017)

Team Size: 13

Tools: PA Manager, Bugzilla ,Starclips,Autoanalysis, Git, Jira, Data reports ,Data delivery record.

Project Name: IRELAND

Client, Canada

Role: Software Test Engineer

Duration: (June2013 – May2015)

Team Size: 09

Tools: PVCS Version Manager, Serena Mover, Citrix, Control-M Batch ,Bugzilla.

Project Name 2: COC-News access

Client:US,Spain. Role:Software Test Engineer

Duration: (Aug 2014 – Dec 2016)

Team Size: 11

Tools: Bugzilla ,Star clips, Auto analysis, Git, Jira, Data reports ,Data delivery record, Remote Server Access (RSA), SQL developer.
