PROFILE

" 4 years of experience as a Full Stack Developer with expertise in JavaScript, Vue.js, React.js, Python, and Django. I have a well-rounded skillset for developing both the front-end and back-end of web applications. I am proficient in building dynamic and responsive user interfaces and single-page applications using JavaScript, Vue.js, and React.js. Additionally, I am experienced in building robust and scalable server-side applications, APIs, and integrating with databases using Python and Django."

WORK EXPERIENCE

Software Developer

Intelliswift (SAMSUNG SDS)

2023-current

- Ensuring consistency and adherence to design guidelines across all modules (DMS, MDM, IMS).
- Utilizing Samsung's proprietary UI development library for creating intuitive and user-friendly interfaces.
- Integrating Vue.js components with backend APIs to fetch and display data from the server for Distribution Management System (DMS), Master Data Management System (MDM), and Incentive Management System (IMS).
- Integrating Vue.js components with backend APIs to fetch and display data from the server for Distribution Management System (DMS), Master Data Management System (MDM), and Incentive Management System (IMS).
- Collaborating with the team to develop and enhance features specific to each module (DMS, MDM, IMS).
- Implementing Vue.js components and functionalities tailored to the requirements of Distribution Management System (DMS), Master Data Management System (MDM), and Incentive Management System (IMS).
- Conducting regular maintenance tasks such as performance optimization and code refactoring for all modules.

Full Stack Developer

Agrex.ai

2020-2023

- Designed, developed and maintained a complete dashboard application for clients, providing data visualization and analysis tools.
- Utilized Vue.js, React.js, HTML, CSS and Bootstrap to build responsive and engaging front-end interfaces .
- Leveraged Python and Django to develop server-side logic, APIs and backend database integrations.
- Employed REST Framework for building APIs to interact with the front-end of the application.
- Conducted thorough testing and debugging to ensure high-quality and reliable software.
- Collaborated with other team members to implement best practices, design patterns and code standards.
- Stayed up-to-date with emerging trends and technologies in full stack development and continuously improved technical skills.
- Worked closely with UX designers and product managers to understand business requirements and deliver solutions that met user needs.
