## Core Competencies

- Front-end Development
- UI/ UX Design Understanding
- Scalable UI Architectures
- Unit & Integration Testing
- Scrum / Agile
- Incident Resolution
- Stakeholder Management
- User Interface / Product Ownership
- Requirement Gathering
- Project Management

## Technical Skills

- Web Technologies: HTML5,CSS3, JavaScript, Typescript,JSON, React.JS, Styled component, Redux, Next.JS, ES6, RWD
- Version Control: GIT, TFS
- Methodologies: Agile , SDLC
- Other Tools & Technologies: NPM, Yarn, JIRA
- IDE:VS code
- Debugging Tools: Chrome Developer Tools, IE Developer, Toolbar

## Soft Skills

Communicator 

Problem Solver 

Leadership 

Analytical 

Team-oriented 

## Education

- B.E. (CSE) from Global Academy of Technology, Bangalore (VTU) in 2012 with 67%

## Personal Details

- Date of Birth: 26 June1989
- Languages Known: English, Kannada
- Address: Bengaluru, 560010

# Raghavan SD

## UI Development Professional

**Visionary Front- end React Developer** with a track record of delivering complex User Interface projects on time, targeting senior-level positions in **Product Development and Project Management** at reputable organizations that prioritize innovation and excellence in front-end development.

## Profile Summary

- Performance-driven professional with over a decade of expertise as a UI Developer, proficient in User Interface Development, Coding & Programming, and successful Team Coordination
- Specializing in transforming intricate concepts into user-friendly and innovative interfaces in line with end user objectives, continuously staying abreast of the latest design trends and state-of-the-art technologies.
- Proficiently managing UI, Storyboard, and Visual Studio, harnessing React JS and Next JS for Single Page Application (SPA) Development.
- Expertise in eliciting client requirements, developing tailored design briefs aligned with client goals, and consistently staying updated with emerging technologies. Skilled in employing React JS components, Forms, Events, Keys, Router, and Animations.
- Recognized for adeptly identifying and articulating user requirements, creating prototypes for internal evaluation, and conducting user research to refine solutions based on empirical data and insights.
- Followed the project life cycle methodology defined under the process framework; ensured that customer deadlines were met within project budgets.
- Drove efforts towards maintaining software development practices; adhered to company standards for coding and unit/functional test coverage

## Work Experience

**Feb'24- Present with VIMO India Pvt. Ltd., Pune as Lead Software Engineer**

**Feb'22- Feb'24 with Maersk, Bengaluru as Software Engineer-III**

**Sep'20- Feb22 with Standard Chartered GBS, Bengaluru as UI Developer**

**Mar'20-Aug'20 with LGSI, Bengaluru as Senior Research Engineer**

**Aug'16-Mar'20 with Lowes India Pvt. Ltd., Bengaluru as Software Engineer**

**Mar'13-May'16 with Infosys, Bengaluru as Test Engineer(Dot Net C#)**

### Key Result Areas:

- Leading all aspects of UI Development and project management, encompassing user experience analysis, market research, benchmarking, conceptualization, interface and visual design, development, deployment, and addressing high-level design escalations post-launch.
- Assisting in determining operational feasibility through analysis, problem definition, requirement analysis, and proposing solutions.
- Documenting software solutions through flowcharts, layouts, diagrams, charts, code comments, and clear code.
- Formulating solutions for given technical specifications; installing application software & deploying customizations; contributing to code reviews.
- Participating in the team's agile software development process; developing unit tests and functional/integration tests; supporting production deployments of developed solutions.
- Operating with the product management team and engaging internal customers to understand requirements and gather feedback on solutions.
- Performing analysis, design, verification, demonstration, and maintenance of products in a process-driven, team environment.
- Developing software solutions by studying information needs, conferring with users, studying systems flow, data usage, and work processes.
- Liaising with users for requirement gathering; prepared functional specifications and low-level design documents.
- Conducted consistent follow-ups with clients to drive inbound sales and maintain strong customer relationships.

## ANNEXURE

### **Lead Software Engineer @ VIMO India Pvt. Ltd., Pune: Feb 2024 - Present**

#### **Roles & Responsibilities:**

- Currently employed at VIMO India Pvt. Ltd., Pune, serving as a Lead Software Engineer.
- Engaged in the Human Service Project, a state project for the US government, aimed at providing government facilities for children.

### **Software Engineer-III @Maersk, Bangalore**

**Technologies:** HTML 5, CSS3, Typescript, React JS, Redux, Next JS, Restful API

**Project Description:** Front-end Developer for Maersk, A/S, also known simply as Maersk, is a Danish shipping company, active in ocean and inland freight transportation and associated services, such as supply chain management and port operation.

- Developed user interface utilizing React JS and Flux for SPA development.
- Utilized React JS components, Forms, Events, Keys, Router, Animations, and Flux concepts.
- Collaborated with backend engineers to enhance existing API calls, optimizing efficiencies by eliminating unnecessary API calls.

### **UI Developer @ Standard Chartered GBS, Bangalore**

**Technologies:** HTML 5, CSS3, JavaScript, Styled Component, Ajax, React JS, Redux, JSON, Restful API (consuming)

**Project Description:** UI Developer for Standard Chartered GBS. Standard Chartered Global Business Services is the Standard Chartered Group's Global Technology & Operations Hub. A wholly owned subsidiary of Standard Chartered Bank, United Kingdom, Scope International is the first Global Shared Services Centre of an international bank in Malaysia. My Project is developing an internal Portal for GBS.

#### **Roles & Responsibilities:**

- Developed user interface utilizing React JS and Flux for SPA development.
- Utilized React JS components, Forms, Events, Keys, Router, Animations, and Flux concepts.
- Collaborated with backend engineers to enhance existing API calls, optimizing efficiencies by eliminating unnecessary API calls.
- Worked in Agile/Scrum development environment.

### **Senior Research Engineer (FE React js) @LGSi, Bangalore**

**Technologies:** HTML 5, CSS3, JavaScript, Bootstrap, Ajax, React JS, Redux.

**Project Description:** LG Soft India, the largest global R&D center of LG Electronics. As an Innovation hub of LG Electronics, with enthusiasm on innovation, quality, and excellence, have grown into a trusted partner for clients across the world.

#### **Roles & Responsibilities:**

- Developed reusable components in React JS for LG commercial hardware.
- Utilized React JS as a framework to create a Single Page Application (SPA) which binds data to specific views and synchronizes data with server using Sass, LESS, Bootstrap, Git for version control, and JIRA for defect tracking.

### **Software Engineer @Lowe's India, Bangalore**

**Technologies:** HTML 5, CSS3, JavaScript, Bootstrap, Ajax, React JS, Redux, MySQL, JSON, Restful API

**Project Description:** Front End Developer for Lowe's Companies, Inc. doing business as Lowe's, is an American retail company specializing in home improvement. Headquartered in Mooresville, North Carolina, the company operates a chain of retail stores in the United States and Canada.

#### **Roles & Responsibilities:**

- Developed user interface utilizing React JS and Flux for SPA development.
- Utilized React JS components, Forms, Events, Keys, Router, Animations, and Flux concepts.
- Collaborated with backend engineers to enhance existing API calls, optimizing efficiencies by eliminating unnecessary API calls.

### **Test Engineer @Infosys India Pvt Ltd, Bangalore**

**Technologies:** C#, .NET 3.5-4, SQL Server 2008-12, ASP.NET, HTML, CSS.

**Project Description:** Banking Domain Projects with RBS and Suntrust (Maintenance and Development).
