Summary

With nearly eight years of robust experience in the Information Technology sector, I have honed my skills through diverse roles, including application support and development. My expertise lies in crafting cutting-edge web applications, utilizing a suite of sophisticated frameworks and libraries such as React JS, Angular, HTML, and SCSS. My proficiency in JavaScript further underpins my ability to deliver dynamic and responsive solutions, ensuring that I am well-equipped to tackle the challenges of modern web development.

Experience

Packaged App Development Team Lead

Accenture Solution Pvt Ltd • KA

02/2021 - Present

- Spearheaded the development team for the MyInnovation platform, a dynamic idea-sharing ecosystem within Accenture, featuring contests, collaboration, and social engagement, accessible as a Microsoft Teams application.
- Led the strategic overhaul of MyInnovation modules, ensuring alignment with stakeholder visions and seamless user experience.
- Expertly managed end-to-end project lifecycle, from requirement gathering and architectural design to timely delivery and rigorous code review.
- Ensured timely delivery of MyInnovation enhancements, maintaining strict adherence to project timelines.
- Proficient in Agile methodologies, ensuring rapid and adaptive response to change.
- Served as the primary point of contact for the end-to-end creation of applications, from conceptualization to deployment.
- Expertise in Azure DevOps for repository management, build and deployment processes.
- Accountable for the timely delivery of sprint commitments, maintaining high standards of quality.
- Specialized in cutting-edge web technologies including React JS, HTML5, JavaScript, TypeScript, and CSS.

Technology Analyst

Infosys Ltd • KA

10/2019 - 02/2021

- Enhancement of Mainframe user experiences through the deployment of Orion, a cutting-edge thin client web application.
- Expertly gathered and analyzed client requirements to assess implementation feasibility.
- Agile methodology advocate, ensuring dynamic and efficient project progression.
- Accountable for timely sprint deliverables, maintaining rigorous adherence to Agile timelines.
- Proficient in leveraging modern web technologies including React JS, HTML, and CSS for robust solution development.

System Engineer

Tata Consultancy Services Pvt Ltd • KA

05/2019 - 09/2019

- Engineered a strategic application for executive leadership to assess project growth, driving informed decision-making.
- Designed and implemented updates, features, and applications for new and existing products
- UI design and development, ensuring seamless deployment to servers for optimal performance.
- Leveraged cutting-edge technologies including React JS, HTML, and CSS to deliver a robust and user-friendly interface.

Assistant System Engineer

Tata Consultancy Services Pvt Ltd • KA

12/2016 - 04/2019

- Development of the Major Incident Management Portal for AMEX, centralizing issue tracking and management.
- Engaged in direct client liaison to refine requirements and design specifications for application enhancements.
- Implemented innovative solutions to improve web application functionality, including automated ticketing based on incident categorization.
- Proficient in leveraging C# and .Net MVC technologies to drive project success.

Assistant System Engineer Trainee

Tata Consultancy Services Pvt Ltd • KA

04/2016 - 11/2016

Delivered Level 1 support within the Enterprise Command Centre (ECC) for AMEX applications, ensuring prompt issue escalation and resolution by coordinating with Application Support Teams and conducting server health checks.
