Projects & Job Experience	<p>Bayer Corp SAP OO ABAP Developer + MDG technical+BTP Sr. Consultant Bangalore</p> <p>Project Description: Bayer AG, a leading German pharmaceutical giant, collaborates with Capgemini for SAP PM and SM modules. The focus is on preventive and corrective maintenance, including breakdowns and refurbishment.</p> <p>Contributions</p> <ul style="list-style-type: none"> • Worked on Non-interactive adobe forms, SAP SCRIPT and translation. • Worked on SAP BOPF framework for MOC application • Peer Review. Made use of Code Review Tool for SAP to identify the code bugs and performance issues and worked on SAP analysis tool. • Worked on ODATA and CDS views for Calibration app and other app as well like PPM UI5. • Extensively worked on Implicit enhancement, BADI and customer exit. • POC for BAYSIM webdynpro application for project creation and approval with BW integration. • Worked on Cross -transport Procedure for moving change from one system to other. • Worked on SAP MOC, WCM and MRS. • Worked on SAP work manager application, aware of Syclo configuration. • Developed Document attachment Functionality for MDG-MM using KGS server and transfer to target system. 		

- Automated short text and long text of material (MDG-MM) and created mass updating program also, which creates change request (multiple material) for updating short text and long text.
- After approval of change request, short text and long text gets updated.
- Handled WCM project as main technical lead.
- Implemented Mail function in WCM Work Permit for approval cycle completion.
- Worked on FSM application, Configuring in SAP side and deployed message broker in BTP.

Function of MOC application

- Create Change request for functional location/Equipment.
- Change request has questionnaire based on response activities are created.
- Signature approval process is implemented.
- Workflows implemented for mail triggering based on status change.
- Managed application using BOPF Framework and FPM.
- For activity creation, configured BRF+ table based on question in change request.
- Created custom questionnaire for specific plant.

Functions of PPM UI5 application

- Create Measurement data, Maintenance plan and General instructions.
- Display signature list for approval process simplification.
- It has approval process for creation and change.
- Change log and signature log functions are provided.
- Mass upload and download functionality.
- Attachment functionality at task level in respective task list using DOC41.
- Transfer attachment from task list to notification.
- Transfer same attachment to work manager while notification sync.

Anglian water | SAP OO ABAP Developer + ODATA developer | Associate
|Pune |04/2019 – 01/2020

Project description: Dufry AG is a Swiss-based travel retailer operating around 2,200 duty-free and duty paid shops in airports, cruise lines, seaports, railway stations and central tourist areas.

Contributions:

- Created RFCs for ODATA service implementation.
- Traced and debugged ODATA services for finding bug.
- Implemented ETAGs in ODATA services to achieve concurrency control.
- Worked on query options e.g. \$top, \$skip, \$order by, \$filter etc.
- Implemented CRUD operation and function import.
- Aware of deep insert and expand entity set concept.
- Aware of multi origin calls from web application and know how to achieve.
- Aware of \$batch request and OData Services Consumption and Integration (OSCI)
- Created ODATA services for CDS views.
- Media handling using ODATA services.

Dufry | SAP OO ABAP Developer | Associate |Pune|11/2017 – 04/2019

Project description: Dufry AG is a Swiss-based travel retailer operating around 2,200 duty-free and duty paid shops in airports, cruise lines, seaports, railway stations and central tourist areas.

Contributions:

- Design, develop, code, and test complex programs and enhancements.
- Review functional documents and prepared technical design.

- Worked on complex smart forms customer statement, translations and reports.
- Supported one order, Vancouver implementation project Go-live.
- Worked on performance analysis tool SAT.
- Contributed to Customer exit framework development.

Polo Ralph Lauren AFS Implementation + support | SAP OO ABAP Developer + ODATA Developer| Application Development Analyst | Bangalore |07/2015 – 01/17(Implementation), 01/17 – 29/10(Support)
