## Summary

An experienced ASP.NET Core developer with strong problem-solving and ownership skills. Proactively designs and executes features, manages data storage using frameworks like Entity Framework Core, and prioritizes web application security and optimization. Actively engages with team members, adheres to industry best practices, and stays up-to-date with advancements in ASP.NET Core development. Consistently delivers resilient and contemporary software solutions. Suitable for both freshers and experienced professionals.

---

## Experience

### Software Developer • Chetu

Apr 2022 - Aug 2023

- Skilled in designing and implementing robust features in ASP.NET Core development
- Proficient in handling data storage using frameworks like Entity Framework Core
- Ensuring the security and efficiency of web applications
- Collaborating effectively with team members to achieve project goals
- Committed to following best practices and staying updated on the latest advancements
- Delivering modern and cutting-edge software solutions

### Software Developer • DigitalYug Technology

May 2021 - Apr 2022

- Proactively conceptualize and implement features using ASP.NET Core, driving the development process
- Expertly leverage data storage frameworks such as Entity Framework Core to efficiently manage and organize data
- Place a strong emphasis on ensuring the security and optimization of web applications
- Actively collaborate and engage with team members to enhance project outcomes
- Maintain consistent adherence to industry best practices for ASP.NET Core development
- Continuously stay updated on the latest advancements in ASP.NET Core development to deliver cutting-edge software solutions effectively and consistently

### Process Associate • Suntec Web Services

Jun 2016 - Jun 2018

Successfully categorized and organized various data sets, including insurance, loan, and banking information, utilizing Excel. Demonstrated proficiency in accurately filling data to ensure streamlined processes.

---

## Education

### MCA • IGNOU: Indira Gandhi National Open University

Jun 2018 - Jun 2021

Computer • Grade: 59%

- Demonstrated expertise in software development, data structures, algorithms, and database management.
- Collaborated with peers on numerous group projects, enhancing teamwork and problem-solving abilities.

- Applied theoretical concepts to real-world scenarios, gaining practical experience in software development methodologies.
- Achieved a solid understanding of software engineering principles, ensuring the delivery of high-quality and efficient solutions.
- Participated in workshops and seminars, staying updated with the latest advancements in the field of computer science.

### **BCA • IGNOU: Indira Gandhi National Open University**

**Jun 2012 - Jun 2016**

Computer • Grade: 58%

During my pursuit of a Bachelor's degree in Computer Applications from IGNOU University, I cultivated a comprehensive understanding of programming skills. This educational endeavor allowed me to strengthen my knowledge and expertise in various programming languages and their applications. By immersing myself in this program, I have developed a solid foundation in programming concepts, algorithms, and problem-solving techniques.

### **12th • Kaushalya Intermediate College**

**Jun 2010 - Jun 2012**

Science Stream • Grade: 69.2%

### **10th • Kaushalya Intermediate College**

**Jun 2009 - Jun 2010**

Grade: 56%

## **Projects**

### **CarolinaMedicalElectronics**

**May 2023 - Aug 2023**

Chetu

- Developed and implemented a role-based management system, granting permissions to both administrators and users.
- Created a comprehensive framework for managing user roles and permissions, ensuring secure access to sensitive information.
- Executed a project focused on enhancing user experience through effective and efficient role-based permission assignment.
- Demonstrated passion for developing robust and scalable systems by designing and implementing a role-based management solution.
- Successfully collaborated with a team to deliver a seamless and user-friendly system for granting permissions to administrators and users.

### **Boon Residential**

**Dec 2022 - May 2023**

Chetu

- Developed and implemented a comprehensive real estate project focused on optimizing property investments.
- Spearheaded research and analysis to identify lucrative opportunities and devised strategies to maximize returns.
- Collaborated with a cross-functional team to execute property acquisitions, renovations, and sales.
- Utilized innovative marketing techniques to attract potential buyers and ensure successful property transactions.
- Evaluated market trends and assessed risks to make informed decisions that enhanced project profitability.

### **Connor Construction**

**Apr 2022 - Dec 2022**

## Chetu

- Implemented role management system, enhancing efficiency and productivity
- Streamlined communication channels, fostering improved collaboration and coordination
- Identified and resolved conflicts and gaps in role responsibilities
- Achieved project objectives within specified timeline and budget
- Received accolades for effective role management practices

## SmartChoice

**Nov 2021 - Apr 2022**

### DigitalYug Technology

- Designed and implemented an Ecommerce project focusing on data management.
- Utilized various strategies to effectively organize and handle large volumes of data within the project.
- Demonstrated passion for Ecommerce by developing innovative solutions to streamline data management processes.
- Successfully integrated data management techniques to optimize the project's overall efficiency.
- Employed proactive approaches to ensure accurate and timely data entry, maintenance, and retrieval.

## Ayesha Infratech

**May 2021 - Oct 2021**

### DigitalYug Technology

- Managed and oversaw a real estate project focused on plot and area management
- Successfully organized and implemented strategies to optimize plot utilization and achieve maximum profitability
- Conducted thorough research and analysis to determine optimal use of land resources and develop effective plans
- Collaborated with a team of professionals to ensure efficient project execution and timely completion
- Employed innovative techniques to enhance plot utilization and maximize revenue generation
- Utilized advanced software and tools to track and monitor plot inventory, sales, and area management
- Achieved significant cost savings through efficient plot utilization and resource allocation
- Demonstrated strong attention to detail and accuracy in managing plot documentation and legal formalities
- Effectively communicated with stakeholders, including clients, investors, and regulatory authorities, to ensure compliance with legal and regulatory requirements.
