D.No: 111/5, LIC Circle, opp. to NEW Collectorate Office, Railway Station Road, Kadapa, Andhra Pradesh, India.

Technical Skills

React JS, React Native (front-end and back-end), tailwind CSS, Angular JS, Express JS, Java, JavaScript, Python, MERN Stack, POWER AUTOMATE, MS Office, WEB TECHNOLOGIES.

TOOLS: VSCODE, ECLIPSE, GITHUB, MICROSOFT POWER AUTOMATE

Soft Skills

- ★ Data Analysis and Visualization
- ★ Decision Making
- ★ Project Management and Agile Methodologies
- ★ Multi-Tasking
- ★ Business Analyst
- ★ Leadership Qualities
- ★ Entrepreneurship and Startup Development
- ★ Project Management and Agile Methodologies

Education Background

2022 - 2024

Rajiv Gandhi University of Knowledge and Technologies, AP BTECH in Electrical and Electronical Engineering

CGPA: 8.5

About Me

As a 19-Year-old technology enthusiast, my passion lies utilizing technology to empower communities and effect positive change. I am seeking a challenging and fulfilling role in a reputable organization where I can continue to grow both personally and professionally.

Projects & Internships

Project: DZire Febraury 2024

Technologies Used:

 React JS, Tailwind CSS, Prisma DB, MYSQL, GitHub, Upload thing, Stripe, Clerk, Shadon

Description:

Contributed to the development of DZire, a web-based platform enabling users to design and build custom websites using intuitive UI/UX methods. Implemented a drag-and-drop interface, robust backend system, and payment gateway for subscription-based services. Designed an admin panel for managing user accounts, website data, and billing information. Ensured a seamless user experience and robust backend functionality.

Project: Genmo

September 2023

Technologies Used:

 React JS, Tailwind CSS, Prisma DB, MYSQL, GitHub, Open AI, Stripe, Clerk, Shadon

Description:

 Developed Genmo, a revolutionary platform that generates images, music, code, and videos using userdefined prompts and Open AI library. Features a userfriendly interface for real-time content generation.
 Enables users to unlock their creative potential with innovative content generation capabilities

Project: Flipkart Clone

July 2023

Technologies Used:

 Mongo DB, Express JS, Node JS, React, Material UI Description:

2020 - 2022

Rajiv Gandhi University of Knowledge and Technologies, AP

Intermediate UNIVERSITY COURSE

CGPA: 8.5 2018 - 2020

A.P MODEL SCHOOL, VALLUR SECONDARY EDUCATION

CGPA: 9.7 2018 - 2020

A.P MODEL SCHOOL, SAMBEPALLI
SECONDARY EDUCATION

CGPA: 10

Hobbies:

- Browsing Internet for Updated Technologies
- Listening to music
- Playing Chess
- Video Editing
- Drawing Portraits

My Projects:

- Flipkart Clone
- Genmo
- DZire
- Car rentals website (React)
- Instagram Clone (Mern)
- Affiliate Marketing website
- Telegram Bot (Integrates Drive and telegram)

Developed a fully functional e-commerce website, a clone of Flipkart, with user-friendly interface and key functionalities like user authentication, product search, and secure payment processing. Ensures seamless user experience and robust backend functionality. Utilizes cutting-edge technologies for optimal performance.

Link: Flipkart Clone

Coursework:

Full-Stack Development:

- Machine Learning with Python
- Cloud Computing with AWS or Azure
- DevOps and CI/CD
- Progressive Web Apps (PWAs)
- React Native

Video Editing and Visual Effects:

- Adobe After Effects
- Color Grading and Color Correction
- > 3D Modeling and Animation
- Video Production and Storytelling
- Motion Graphics and Animation

Achievements:

Full-Stack Development:

- Developed multiple full-stack applications.
- Successfully integrated machine learning models into full-stack applications.
- Designed and deployed scalable cloud-based solutions using AWS/Azure.
- Implemented DevOps practices.
- Created Progressive Web Apps (PWAs).

Video Editing and Visual Effects:

- Edited and produced high-quality video content for various clients, resulting in a 95% client satisfaction
- Created stunning visual effects and motion graphics for multiple projects.
- Developed expertise in color grading and color correction
- Successfully integrated 3D modeling and animation into video projects.
