Profile Summary

My expertise includes creating complex dashboards, reports, and data visualizations using Power BI Desktop, and developing custom reports using Paginated Reports. ??? I am a results-driven professional with a strong ability to analyze complex data sets and deliver actionable insights to clients. Involved in creating Rich Data visualizations like Clustered Column Chart, Bar Chart, Donut Chart, Line Chart, Scatter Plot, Slicer, Gauge Visualization etc. with Power BI. ??? Work with Hadoop clusters to process and analyze large and complex data sets ??? Experience in writing complex DAX to create calculated table, calculated column & measures. ??? Used functions like table functions, aggregation functions, time intelligence functions, conditional functions, error handling functions, etc. ??? Develop Power BI Reports & Effective Dashboards after gathering and translating End-User Requirements. ??? Providing security by using Row Level Security (RLS) implementation.
