Software awareness:

Languages	C#. Net, ASP.Net, Asp.Net Mvc
Frameworks	.Net Framework 4.5, 4.7
Database Servers	SQL Server 2018
Version controls tools	GIT
Bug Tracking Tools	JIRA, Service Now
Web Servers	IIS 10
Azure	Azure DevOps CI/CD pipelines, build, test, and deployment automation.
Agile Methodologies	Scrum

Projects Handled:

Title:	**Travel Insurance**
Technology:	**C#. Net, ASP.Net MVC and SQL server 2018, VS 2019**
Team Size:	**4**
Duration:	**July 2022 – till date**

Description:

Cover more is a travel insurance company, and currently we are developing and supporting software applications and products for Blue Insurance Ireland and UK which a part of Cover more.

In this Project we are working on different travel products like Multitrip, GreatCover and Blue insurance. Along with all these travel products we are also supporting PET insurance in Ireland. All these applications are mainly supporting for end users to purchase insurance policy for travel. So here are developing and maintaining the web applications with .Net technologies.

Roles & Responsibilities:

- Developing and maintaining the .net c#, Asp.Net, MVC applications.
- Supporting and maintaining the SQL job schedules to manage data in the backend for different data reports.
- Write SQL, triggers, stored procedures, and functions for the applications.
- Integrated JavaScript and CSS for rich responsive display.
- Unit testing of all the developed modules.

Title:	**RecSports Network**
Technology:	**C#. Net, ASP.Net MVC and SQL server 2018, VS 2019**
Team Size:	**3**
Duration:	**Mar 2022 – June 2022**

Description:

The RecSportsNetwork is a free website for recreational leagues and its participants. The site provides a platform to create leagues for different games like football, baseball, basket ball, hockey and volleyball. Visitors can see the league schedules and ongoing games details in website.

League details will contain venue, date and team names. In this we have roaster module to maintain the player's details. The Commissioner can create a league. Players will get notification of rain outs and other news and notes.

A league will have Divisions and Conference. The admin will manage the all leagues created by commissioners and admin only can activate and deactivate a league. The admin can create a new venue and Umpire.

Responsibilities:

- Involved in Analysis, Design and Coding.
- Involved in the Database creation.
- Developed with Asp.Net MVC deals with Admin module and Commissioner modules.
- Involved in writing queries in MS SQL server 2018.
- Used Java script and jQuery for validating the forms and write functions in Client-side.

- Unit testing of all the developed modules.

Personal Profile:

Name	:	Naga Harsha Vardhan
Fathers Name	:	Venkateswarlu
Present Address	:	D.No 9-244-2,
		Ganapavaram, Nadendla(Mdl). Palnadu(dt)
		AndhraPradesh-522619.
Date of Birth	:	08-11-1996
Marital Status	:	Single
