📱 8334950022

Profile Summary

With 15+ Years of overall experience & over 8 years of relevant experience in Information Security and Cybersecurity, I've honed extensive expertise across Cybersecurity Governance, Risk Management, Compliance (GRC), Third-Party Risk Management, Vulnerability Assessment, and Penetration Testing, alongside a solid foundation in IT operations. My role recently expanded as an Associate Consultant in Cyber Security for a BFSI US client, allowing me to tackle industry-specific challenges and enhance cybersecurity frameworks within the financial sector.

My career encompasses leading risk-based IT audits across diverse technological landscapes, including applications, networks, databases, and operating systems. I've spearheaded cybersecurity initiatives as an Information Security Manager for a UK Utilities Account at TCS, demonstrating my ability to adapt and innovate in evolving security landscapes. Renowned for my strategic planning and end-to-end program and project implementation skills.

Cybersecurity Associate Consultant seeking roles in Cyber Security, Cybersecurity Audit, IT Security, Cloud Security, GRC, Project Management, Information Security Management, Vulnerability management, VAPT.
