OBJECTIVE

Highly skilled and motivated Software Development Engineer with a strong background in Web Development and a focus on Front-end Development. Pursuing a challenging role to drive the development of cutting-edge web applications in a dynamic organization

EDUCATION

2021
Bachelor of Engineering in **Electronics and Communications Engineering** from **R.V College of Engineering, Bengaluru, Karnataka**
CGPA- **7.2**

2017
Class 12th from **DPS Ranchi, Jharkhand**
Percentage- **90.01%**
CBSE Board

2015
Class 10th from **DAV Public School**
CGPA- **10**
CBSE Board

CORE COMPETENCIES

User Interface Design
Web Application Development
Cross-Browser Compatibility
Agile Methodology
User Experience Optimization
Performance Optimization
Version Control Systems
Quality Assurance and Testing
Project Management
Client Relationship Management

PROFILE SUMMARY

- Possess a strong background in front-end web development with over 3 years of experience in Angular, JavaScript, CSS, and HTML
- Currently working as Angular Development Engineer at Intelect Design Arena, leveraging the Angular framework to create customized web applications and mobile app that exceed client expectations
- Contributed to several projects, which helped to expand expertise in web development and related technologies; offered creative ideas and suggestions in team meetings, resulting in successful project deliveries
- Proficient in Responsive Design, JavaScript, CSS, and HTML, consistently delivering exceptional projects that exceed client expectations
- Collaborated seamlessly with cross-functional teams to conceptualize and execute intuitive web UI designs for diverse use cases, including mandate, KYC verification, and loan approval
- Streamlined intricate processes through the development of the Graph BRE engine, leading to enhanced efficiency and productivity
- Actively contributed to a diverse range of projects, including IIFL& GFL, marginally broadening expertise in web development and related technologies
- Exhibit exceptional problem-solving capabilities, skilled at identifying and rectifying issues to optimize software performance and elevate user experience
- Fostered effective communication and collaboration within team projects, consistently contributing innovative ideas and suggestions that drive successful project outcomes
- Identified and resolved software issues, resulting in improved performance and enhanced functionality

WORK EXPERIENCE

Feb'2024-Present | Angular Developer| Intellect Design Arena, Chennai

Key Result Areas:
- Creating customized web and mobile applications using the Angular Ionic framework, tailored to meet specific client requirements and exceed expectations.
- Leading a team to develop responsive web design for ARAB NATIONAL BANK.
- Working on developing mobile apps for iOS and android in Angular ionic framework for client requirement.
- Contributing innovative ideas and suggestions during team meetings, playing a pivotal role in driving successful project deliveries.
- Actively engaging in code reviews, offering constructive feedback to optimize code

Achievements:
- Achieved Phase 1 release for mobile app and web app for Bank production in   time.

Oct'2022-Present | Software Development Engineer | Finflux Technology, Bengaluru, Karnataka

Key Result Areas:
- Creating customized web applications using the Angular framework, tailored to meet specific client requirements and exceed expectations
- Collaborating seamlessly with cross-functional teams to conceptualize and execute intuitive web UI designs for diverse use cases, including mandate, KYC verification, and loan approval
- Worked on workflow configuration for multiple clients
- Contributing innovative ideas and suggestions during team meetings, playing a pivotal role in driving successful project deliveries
- Actively engaging in code reviews, offering constructive feedback to optimize code quality and ensure long-term maintainability
- Remaining up-to-date with cutting-edge industry trends and technologies, consistently enhancing development processes to deliver exceptional results

Achievements:
- Achieved reduction in development time by developing the Graph BRE engine, simplifying the process of writing business rules
- Actively contributed to multiple projects, including IIFL & GFL, expanding expertise in web development and related technologies

Aug'2021-Oct'2022 | Software Development Engineer | Winwire Technology, Bengaluru, Karnataka

Key Result Areas:
- Acquired extensive experience in Android development and Ionic framework, honing expertise in technologies like Kotlin, Angular, JavaScript, HTML5, and CSS3
- Collaborated with a team of 6 Developers to successfully design and implement a hybrid app using the HID project, effectively addressing KYC verification requirements for a UK client
- Led the design and development of visually captivating and user-friendly interfaces for Android applications, leveraging the power of the Ionic framework
- Proactively identified and rectified software issues, marginally enhancing performance and elevating the overall user experience

Achievements:
- Improved software performance by effectively identifying and resolving issues, resulting in enhanced functionality and heightened user satisfaction
