Certifications

- **Acumatica The Cloud ERP**

Technical Skill Set

- **Programming Languages:** C#.NET, MVC, Acumatica Developer

- **.Net:** .Net Core 3.1, Web API.
- **Database & Reporting Tools:** MS SQL Server 2012/2014/2016/2017, MySQL, SQL Server Reporting Services (SSRS).
- **IDE:** Visual Studio 2019/2017, SQL Server Management Studio.
- **Webservers:** Internet Information Server 7.5 (IIS)
- **Version Control & Tools:** Team Foundation Server 2013, Git, JIRA, GitHub, Report Builder.
- **Unit Testing tools:** TestSDK
- **Others:** JSON, Postman.

Academic Qualification

- Bachelor of Technology from K.K.Wagh collage of Engineering, Nashik, Maharashtra, in Information Technology.

Career Highlights

- Working as Senior Software Engineer for **Kensium Solutions Private Ltd**, Hyderabad from April 2021 to till date.
- Worked as Software Engineer for **Neemus Software solutions,** Hyderabad from Jan 2019 to Sep 2021.

Professional Experience

Project 1: Kensium – Shiphawk.
Role: Software Developer
Company: Kensium Software Solutions, Hyderabad
Client Name: Shiphawk.

Roles and Responsibilities

- Developed new screen as per the user requirement and provided support
- Worked on Trouble-shooting and bug fixing

- Performed code review and worked closely with team members to ensure consistency to code standards. Designed and developed a tool for recruiters that helps in the hiring

process (Resource Management) using C#.NET, and ASP. Net MVC and deployed into Repository.

- Made changes as required in the existing SQL functions, stored procedures and packages, and refined the data model.

Environment: C#, Microsoft Visual Studio 2019, LINQ, BQL and Postman.

Project 2: Kensium - Tax Cloud
Role: Senior Software Engineer
Company: Kensium Solutions, India

Roles and Responsibilities

- Developed new screen as per the user requirement and provided support
- Worked on Trouble-shooting and bug fixing
- Oversaw the entire software development life cycle, coding, performed debugging & configured existing systems.
- Wrote codes for .NET software applications by using pair programming & code reviews.
- Performed Scrum activities like creating user sprint planning, and sprint retrospectives.
- Resolved and tracked issues while avoiding escalation.

Environment: Microsoft ASP.NET, C#, Microsoft Visual Studio 2017, HTML

Project 3: AIIMS Office, INVENTORY & DISTRIBUTION MGMT SYSTEM
Role: Software Engineer
Company: Neemus software Solutions Private Limited, Hyderabad
Client Name: AIIMS Delhi.

Roles and Responsibilities

- Developed new screen as per the user requirement and provided support
- Worked on Trouble-shooting and bug fixing
- Oversaw the entire software development life cycle, coding, performed debugging & configured existing systems.

Environment: Microsoft ASP.NET, C#, Microsoft Visual Studio 2017, HTML

Achievements

- Received Appreciation from Clients for timely delivery and resolution of defects.
