Academic Profile

Completed B. Tech(2017) in Mechanical Engineering from Sri Kalahasteeswara Institute of Technology(SKIT), affiliated to JNTU-Anantapur.

PROJECTS:-

1. CYIENT LTD

Application-1:-

Standard Work Instructions

Developing the external functionalities to the SWI application and maintain at Production server.

URL:- https://ihiswiportal.cyient.com

Role: Full stack .Net Developer.

Technical Environment:

C#.Net, MVC, SQL Server

Description:

Standard work Instructions web application was used to maintain the work flow of manufacturing defects and design of Engine parts (Discipline, Part Family, category, Material Type). There are several gates maintained for this work flow. Once the SWI was requested, the workflow is Engineer → Designer → Reviewer → Approver with delivery schedule.

Once the defect was identified and resolved. If customer wants any other enhancements for the same SWI request, then it will be maintained by creating the new revision for the same SWI.

Application-2:-

Non-Conformance

Developing the external functionalities to the NC application and maintain at Production server.

URL:- **https://ihincportal.cyient.com**

Role: Full stack .Net Developer

Technical Environment:

C#.Net, MVC, SQL Server

Description:

Non-Conformance web application was used to maintain the workflow of Non-Conformance defects and modifications of Engine parts whether Design and Structural. It's a full-fledge application to maintain the Work flow. The details of non-Conformance was updated at any stage. SVG Templates also we can used for creation of Non-Conformance. Here the Work flow is Engineer → Evaluator → Reviewer → Approver.

2. FOCUS SOFTNET PVT LTD

Application:-
