SUMMARY

Highly skilled DevOps engineer with experience managing cloud and application deployments. Proficient in Azure, AWS services, CI/CD pipelines. Proven ability to simplify operations, improve security and optimize performance in fast-paced environments.

TECHNICAL SKILLS

Cloud platforms: Azure, AWS

Containerization: Docker

Infrastructure as code: Terraform

Configuration management: Anisble

CI/CD: Jenkins, GitHub Actions

Version Control System : Git, GitHub

Monitoring Language: Prometheus and Grafana

Programming and scripting: Python

PROJECTS

Azure CI/CD pipeline using Azure Pipelines   May 2021 – May 2023

- Used Azure CI/CD pipeline services,Redis to collect votes, .NET worker to consume and store votes. Node.js web apps.
- Implimented voting option between two application (Python and Node.js)
- Docker volume created in Postgress database backend
- View grades implimented using the Node.js web app in real time

Creation and deployment of AWS CI/CD pipelines   May 2023 – Present

- AWS CodeBuild, CodePipelines, IAM, and System Manager services configured to store parameters to create Buildspecs
- Detailed the project by providing project details from vendor, repository and services role
- Configured IAM role services configured to grant permission to access the SSM enviornment
- Assigned the enviornment and created the Buildspec file using AWS System Manager parameters and docker execution commands

EXPERIENCE

Associate Consultant   May 2021 – Present
Capgemini   *Pune, India*
- Orchestrated CI/CD pipelines using Azure Pipelines and AWS CodePipeline for seamless application deployment
- Managed IAM roles to ensure secure access and compliance across cloud environments
- Optimized Buildspec files for streamlined deployment workflows across Azure and AWS platforms
- Collaborated with teams to solve their problems

EDUCATION

Amity Online   Online, MBA
MBA in Information Technology   *Jan 2024 – Jan 2026*

G.H. Raisoni college of engineering, Nagpur   Nagpur, B.E
B.E. in Information Technology   *Aug 2017 – May 2021*
